

Project Final Report for XXX TEAM NUMBER

Team Member: XXX First and Last name SN1234567

1 Overview

Describe your system, users, and use cases. Link to video demo. Maximum 1 page.

2 System Architecture

Identify your tech stack to give context to the choice of the system architecture design. Provide one data flow diagram (DFD) and illustrate it at Level 1. Be consistent in the use of notation. Explain your diagram clearly. Maximum 2 pages total.

3 System Features

Enumerate each feature included in this project as a set of bullet points, including buggy ones which you will indicate and explain. Provide 2-3 sentences to explain each feature so the reader is clear on how much work goes into making that feature work. Annotate which features are the ones you worked on. Page length will depend on how many features you implemented, but likely no more than 5 pages.

1. Example Feature 1: some explanation about this feature so the reader knows the time involved and complexity of getting this to work. Lorem ipsum dolor sit amet, consectetur adipiscing elit. Ut purus elit, vestibulum ut, placerat ac, adipiscing vitae, felis. Curabitur dictum gravida mauris. Nam arcu libero, nonummy eget, consectetur id, vulputate a, magna.
2. *Example Feature 2: some explanation about this feature so the reader knows the time involved and complexity of getting this to work. If this feature is yours, add an Asterisk. Lorem ipsum dolor sit amet, consectetur adipiscing elit. Ut purus elit, vestibulum ut, placerat ac, adipiscing vitae, felis. Curabitur dictum gravida mauris. Nam arcu libero, nonummy eget, consectetur id, vulputate a, magna.

Note: All the features with * are the ones I worked on.

4 Installation and Setup

Explain the steps taken for someone else to install the code from your repo to successfully run the project on their local, as if they were going to test it and continue development with your project. If you plan on replicating the same steps as in your README, just reference the README (but make sure the wording is helpful) and provide the link here. Maximum 1 page.
