COSC 499: Capstone Software Engineering Project

Dr. Bowen Hui
Computer Science
University of British Columbia Okanagan

What to Expect for Mini Presentations

- Instructor will give an overview of a project option
- Each team in that project option will present for 5 minutes
    - Extend the project option overview with your project specifics
    - Give a **live demo** of what your team has implemented so far
    - Use your time effectively to talk about:
        - Framework choices
        - How you test and show (automated) test report
        - How you divide up work in the team
        - Problems you might have come across and anticipated obstacles
    - Every member is expected to participate
- Q&A from audience: 1-minute
- Repeat

Presentation Reminders

- Your laptop to connect to HMDI cable
- Have your machine ready during previous Q&A
- **Tuesday** (starts after this week):
  - Option 1 teams: 2, 8, 21
  - Option 3 teams: 1, 3, 4, 5, 6, 9, 10, 12
- **Thursday** (starts after this week):
  - Option 4 teams: 14, 19
  - Option 2 teams: 7, 11, 16, 17
  - Option 3 teams: 13, 15, 18, 20, 22
- Q&A - give others a chance to answer questions

New Evaluation

- Complete 5+ evals for other teams (in class)

List of Evaluations

Back to Instructor View

Hello, **Abby Kiehlbauch**. You can complete a evaluation or view the results if they are released by your instructor.
